

Open Communication

You choose a cancer center for many reasons: a confidence in the physicians and technology, a feeling of warmth and shared beliefs, a recommendation from a friend... the reasons are as varied as the people who walk through our doors.

We promise to listen well, communicate openly and honestly, and encourage others to do the same.

We Encourage You to Get To Know Us.

Welcome to the Porter Cancer Care Center

When you enter our sun-filled spaces, you'll find yourself surrounded by the healing sights and sounds of nature. A gentle waterfall soothes the soul. A soaring atrium nurtures new life. A colorful aquarium inspires the imagination. This is the Porter Cancer Care Center, a place created to nurture your body, mind and spirit.

At the Porter Cancer Care Center, We Hold the Following Beliefs:

- ❖ Compassion and expertise go hand in hand
- ❖ The role of spirituality is central to healing
- ❖ People of all faiths deserve honor, dignity, respect, and compassionate care
- ❖ Excellence is the cornerstone of all that we do
- ❖ You are a whole person, body, mind and spirit

You're Not Alone

We understand how difficult a cancer diagnosis can be, which is why we offer a full spectrum of support services, including

physicians, nurse navigators, one-on-one counseling, family counseling, genetic counseling, support groups, rehabilitative medicine (speech and physical therapy), chaplains, an oncology certified pharmacist, a nutritionist and nurses. We're here for you when you need us.

A Continuum of Care

Everything you need is right here under one roof: comprehensive care, the latest technology and caring medical staff to guide you from diagnosis to life after cancer treatment. With all of your physicians and support staff conveniently located under one roof, there's no need to drive all over town for your cancer care.

Our team meets weekly to discuss and plan your treatment options. You can also choose to meet with all of your specialists in one room at one time, so it's easy to ask questions of your entire cancer care team and make sure that you understand your overall treatment plan.
